

A.E. Goldsmith

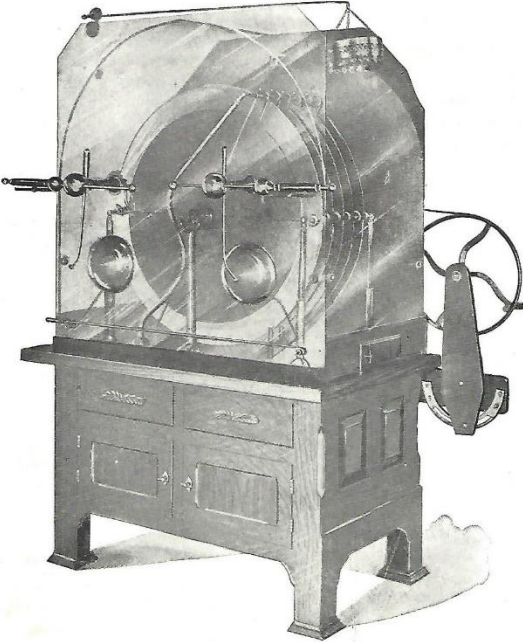

Following from the *Greenfield Republican* Holiday Issue 1902-1903

DR. A. E. GOLDSMITH.

Dr. A. E. Goldsmith is one of Greenfield's most noted physicians. Before coming here Dr. Goldsmith had a large practice at Home City near Cincinnati.

He is the only practitioner in Greenfield who possesses a Static Electrical machine. Just recently he has installed another machine much larger and more powerful than the one he has used for several years with such splendid results. In rheumatic and nervous troubles electricity is being used with much benefit and the X-ray attachment has worked wonderful cures in cases of cancer, lupus, and chronic eczema. Dr. Goldsmith also possesses a splendid atomizer which is of special benefit in catarrhal troubles. As an optician he has achieved great success, and his advice on matters relating to the eye is eagerly sought.

Dr. Goldsmith's handsome residence and office is at the corner of Washington and South street.

NEW STATIC ELECTRICAL MACHINE
Recently Placed in Dr. A. E. Goldsmith's Office.
