## HARRY ASHER.

Whenever a threshing engine gets stubborn or a gas engine refuses to work or any other machine gets out of order in or near Greenfield Harry Asher is always sent for to remedy the defect, During the summer there is always a long line of threshing machines near his place of business in the C. W. Price Mfg. Co's plant waiting to be put in running condition.

Mr. Asher is a first class machinist with years of experience, careful, a prodigious worker, and of excellent judgment. He has given universal satisfaction and his prices are always reasonable. You can get him by calling up No. 75 on Home phone.

Mr. Asher is also agent for the Foos Gas and Gasoline engines.
