## W. H. ANDERSON.

W. H. Anderson has long been closely identified with Greenfield's business interests and there is perhaps nobody in town who has such an intimate knowledge of the industrial condition of our city as Mr. Anderson. For years he has been writing insurance on the important manufactories of the town, as well as on scores of private residences. The writing of insurance involves more than a passing knowledge of properties and their owners, and therefore the insurance agent who has a large business has a splendid opportunity to get at the financial standing of an individual or enterprise.

Mr. Anderson is agent here for the *Ætna*, *Phoenix*, *Hartford*, *National* and *Connecticut Fire Assurance Companies*, all of *Hartford, Conn.*; the *German-American* and *Home Fire Companies* of *New York*; the *Royal* and *North British and Mercantile* of *England*; the *Fire Association* of *Philadelphia*, the *Citizens'* of *St. Louis*, the *Travellers Accident* of *Hartford*, and the *Fidelity Casualty for Plate Glass* of *New York*.
