DR. W. H. WILSON.

Dr. W. H. Wilson comes from a family of physicians and this, no doubt, has contributed in no small way to the success he has achieved in his chosen profession. Besides being a general practitioner of note he has gained considerable reputation as a surgeon. He has performed many difficult operations with an ease and delicacy of touch rarely found outside the larger cities. A young man, Dr. Wilson has a brilliant future before him and there is little doubt but he will make good use of his opportunities.
